

What's Happening Wednesday

Kansas Immunization Program

VFC Nurse on Call - The nurse on call for next week is Dena Rueb at dena.rueb@ks.gov. The nurse on call can be reached at 785-296-5592.

January 25, 2017

Chief Chat- It is time for the annual Vaccines for Children (VFC) educational update through the *You Call the Shots* CDC courses. All VFC Primary and Secondary Contacts must complete these annual trainings in order for providers to remain active in the VFC program. Both *You Call the Shots* courses must be **completed by February 28, 2017** and certificates submitted to the Kansas Immunization Program. The courses may be accessed through KS Train, the CDC website or through links on the KIP website.

KS Train Link	CDC Link	KIP Link
Course ID# 1068253	WB2755	Storage and Handling - 2017
Course ID# 1068390	WB2757	Vaccine for Children Program - 2017

Once completed, please submit certificates for both courses via email to kdhe.immunizationregistry@ks.gov or fax to 785-559-4227. Once the IV4 provider registration site has been updated for the 2017 enrollment (planned for late March 2017) and opened, all certificates will be loaded by KIP to your enrollment page.

Save the date fliers for the **2017 Kansas Immunization Conference** will be arriving soon in your mail box and conference registration will be open in about six weeks if not sooner. This year's conference theme is **From Door to Needle** and will have a focus on the importance of the role of everyone in the provider office to encourage immunizations on time for everyone. The conference will take place at the Bicentennial Center in Salina, Kansas as it was last year, but we are expanding to take over the entire facility. The conference will be June 7th and 8th with pre-conference trainings on June 6th from 12:30 – 4:30 PM along with registration. We have secured four host hotels and all are available now for you to book your reservations. We encourage you to book early as hotel space may be limited in Salina as the date comes closer. The special room rates listed below will be available as long as rooms are available up to May 6, 2017. Mention *Immunization Conference* to get the special conference rate.

Hotel	Address	Phone	Rate	Breakfast Included?
Holiday Inn Express	755 West Diamond, Salina	785-404-3300	\$91.00	Yes
Holiday Inn Salina	3145 South 9 th , Salina	785-404-6767	\$91.00	No
Country Inn & Suites	2760 South 9 th , Salina	785-827-1271	\$79.00	Yes
Hampton Inn	401 W. Schilling, Salina	785-823-9800	\$91.00	Yes

Please note that even though breakfast is provided at three of the four hotels, based on feedback from your conference feedback of 2016, we will provide breakfast at the conference site on the 7th and 8th.

The school and early childhood facility immunization requirements letters for the 2017 – 2018 school year are now available on the [KIP website](#). The supporting tools such as the FAQ, Overview etc. are being updated and will all be posted as they are completed in the next few days. The Kansas Certificate of Immunizations (KCI) has also been updated in WebIZ and with the ordering center.

Have a great week!

Phil Griffin, Deputy Director, Bureau of Disease Control and Prevention

VFC Question of the Week-

Q: What is the new HPV vaccine schedule recommendation?

A: In October 2016, the Advisory Committee on Immunization Practices (ACIP) voted to recommend a routine 2-dose HPV vaccine schedule for adolescents who start the vaccination series before the 15th birthday. The two doses should be separated by 6–12 months (the minimum interval between doses is 5 months). A 3-dose schedule continues to be recommended for people who start the series on or after the 15th birthday and for people with certain immunocompromising conditions (such as cancer, HIV infection, or taking immunosuppressive drugs).

DID YOU KNOW?

The 9vHPV vaccine (HPV9, Gardasil 9, Merck) will soon be the only HPV vaccine available in the U.S. As of October 2016, Merck is distributing only HPV9, and supplies of 2vHPV (Cervarix, GSK) in the U.S. are now depleted. HPV9 may be used to complete a series begun with 4vHPV (HPV4, Gardasil, Merck) or 2vHPV.

Schedule for Routine Vaccination:

Type of Vaccine	Age initial dose was administered ^(1,2)	Dose	Schedule ⁽²⁾
HPV Vaccine (Gardasil, Gardasil 9)	9 through 14 years	0.5 mL	Two doses, 6–12 months apart ⁽²⁾
	15 years or older	0.5 mL	Three doses at 0, 1–2, and 6 months

Schedule for Catch-Up Vaccination:

History of Previous HPV Vaccination	Schedule for HPV Vaccine Administration
0 documented doses, or none known	Follow schedule as per above table.
1 previous dose when younger than age 15 years	Give dose #2 with minimum interval of 5 months ⁽²⁾
2 previous doses given less than 5 months apart and dose #1 given when younger than age 15 years	Give dose #3 with minimum interval of 12 weeks after dose #2 and at least 5 months after dose #1.
1 previous dose when age 15 or older	Give dose #2 at least 4 weeks after dose #1, then give dose #3 at least 12 weeks after dose #2 and at least 5 months after dose #1.
2 previous doses when age 15 or older	Give dose #3 at least 12 weeks after dose #2 and at least 5 months after dose #1.

¹⁻ Only two doses are recommended for anyone who begins the 2-dose schedule before the 15th birthday, regardless of age at series completion.

²⁻ Immunocompromised persons, including those with HIV infection, should receive a 3-dose series at 0, 1–2, and 6 months, regardless of age at vaccine initiation.

Note: For individuals who failed to complete either the 2-dose or 3-dose schedule as stated above, do not start over. Please follow the Catch-Up Vaccination chart.

Recording Temperatures of Vaccine– Twice a Day

Even though the datalogger is recording temperatures, the clinic staff must document temperatures twice daily to prevent inadvertent loss of vaccine and the potential need for revaccination. The checking of the datalogger helps identify any temperature excursions so that immediate corrective action can be taken and documented. The datalogger must be placed with the vaccine at all times to ensure a temperature documentation continuum.

Influenza Like Illness Surveillance– Sharp Increase Reported

During the week ending January 21, 2017, Kansas saw a sharp increase in influenza-like illness (ILI) activity in ILINet site reports. ILI is defined as a fever ($\geq 100^{\circ}\text{F}$) and the presence of a cough and/or sore throat. ILINet sites reported 4.9% of visits were due to ILI, an increase from the previous week of 3.3%. These sites are also asked to submit up to two specimens for testing at the Kansas Health and Environmental Laboratories (KHEL). These specimens help monitor what types of influenza are circulating in Kansas. KHEL has reported 36 positive influenza specimens (32 A/H3, 2 A (not subtyped), 1 A/H1, and 1 influenza B). Additionally, four long-term care facility influenza outbreaks were reported to KDHE. Please remember outbreaks of any disease including influenza are reportable to KDHE. For more information on influenza surveillance, visit <http://www.kdheks.gov/flu/surveillance.htm>.

Amie Worthington

Seasonal Influenza Vaccine Update

The chart below shows the current percentage of the Kansas allocated influenza vaccine which has been delivered to the McKesson distribution center. Kansas Provider orders have and will continue to be filled according to the stock available to us through McKesson and based upon each providers seasonal order.

2016-2017 PEDIATRIC VFC FLU PRE-BOOK RECEIVED AS OF 1/25/2017

Manufacturer	Brand	NDC	Age	Presentation	VFC Available	CHIP Available
GSK	Fluarix Quad (IIV4)	58160-0905-52	36mos+	10 1 dose syringes	N/A	100%
GSK	FluLaval Quad (IIV4)	19515-0903-11	6mos+	10 dose vial	100%	100%

KSWEBIZ Trainings— This week's trainings highlighted in yellow below

Aggregate Inventory Training— **Mondays at 1 p.m., First Friday at 10:30 a.m.**

The Aggregate Inventory Training occurs the first Friday of every month from 10:30 -11:30 a.m. This call will go over the basics of the On Hand, Reconciliation (MIR submission) and Vaccine Ordering windows in KSWebIZ for Aggregate Users. Bring questions and examples of issues that your clinic is having with the end of the month reporting. **Please note:** this call is for KSWebIZ Aggregate Users Only! After registering, you will receive a confirmation email containing information about joining the webinar. <https://attendee.gotowebinar.com/rt/6598705111102500354>

Register now for the date that works best for you!

Direct Entry Inventory Training— **Tuesdays at 1 p.m., First Friday at 12 p.m.**

The Direct Entry Inventory Training occurs the first Friday of every month from 12 -1 p.m. This call will go over the basics of the On Hand, Reconciliation (MIR submission) and Vaccine Ordering windows in KSWebIZ. Bring questions and examples of issues that your clinic is having with the end of the month reporting. **Please note:** this call is for KSWebIZ Direct Entry Users Only! After registering, you will receive a confirmation email containing information about joining the webinar. <https://attendee.gotowebinar.com/rt/4121654947304535298>

Register now for the date that works best for you!

New User Training— **Thursdays at 2 p.m., Second Friday at 12 p.m.**

The New User Training occurs the second Friday of every month from 12 -1 p.m. This basic training is for new KSWebIZ users, or people who would like a simplified refresher training on how to use KSWebIZ. We will be going over log-in, adding history, administering vaccinations, printing consents and pink cards. If you are a new user, have a new token, or recently had a token transferred to you please take the time to sit in on this training! **Please note:** this call is for KSWebIZ Direct Users Only! After registering, you will receive a confirmation email containing information about joining the webinar.

Register now for the date that works best for you! <https://attendee.gotowebinar.com/rt/1572841858584797442>

School Module Training- **Third Friday at 12 p.m.**

The School Module Training occurs the third Friday of every month from 9 - 10 a.m. This basic training is for new KSWebIZ school module users, or people who would like a simplified refresher training. **Please note:** this call is for KSWebIZ School Module Users Only! After registering, you will receive a confirmation email containing information about joining the webinar. <https://attendee.gotowebinar.com/rt/8422671756415350273>

Register now for the date that works best for you!

Reports Training- **Fourth Friday at 12 p.m.**

The Reports Training occurs the fourth Friday of every month from 12 - 1 p.m. This training is for KSWebIZ users who are wanting to learn more about the KSWebIZ Reports. We will be going over the various reporting sections and how to generate reports within these sections. We hope you have time to sit in on this training! **Please note:** this call is for KSWebIZ Direct Users Only! After registering, you will receive a confirmation email containing information about joining the webinar.

Register now for the date that works best for you! <https://attendee.gotowebinar.com/rt/568840407867357186>

NOTE: There have been additional trainings scheduled during the week for New User Training, Direct Inventory Training and Aggregate Inventory Training. The new times can be found above and when you register and select a specific training time. If these times do not work with your schedule or you have additional training needs please reach out to the IIS trainer michael.sims@ks.gov or 785-296-0687

Vaccine Information Statements–

Anthrax	3/10/10	MMR	4/20/12
Chickenpox	3/13/08	Tdap	2/24/15
DTaP/DT/DTP	5/17/07	MMRV	5/21/10
Hepatitis A	7/20/16	Multi-vaccine	11/05/15
Hepatitis B	7/20/16	PCV 13	11/05/15
Hib	4/2/15	PPSV	4/24/15
HPV9	12/2/16	Polio	7/20/16
HPV4 (Gardasil)	5/17/13	Rabies	10/6/09
HPV2 (Cervarix)	5/03/11	Rotavirus	4/15/15
Influenza (LAIV4)	8/07/15	Shingles	10/6/09
Influenza (IIV3 or IIV4)	8/07/15	Smallpox	10/01/09
Japan. enceph.	1/24/14	Td	2/24/15
MCV4/MPSV4	3/31/16	Typhoid	5/29/12
MenB	8/09/16	Yellow fever	3/30/11

Vaccine Redistribution

Please email any additions or changes to be made on the Vaccine Redistribution lists with subject matter “Redistribution” to kdhe.vaccine@ks.gov or call toll free at 1-877-296-0464 http://www.kdheks.gov/immunize/vaccine_redistribution.htm

REMINDERS: Providers may place the excess doses on the KIP Redistribution list if:

- 1) The vaccine has a minimum of 90 days and a maximum of 365 days before the vaccine's expiration date;
- 2) The ordering provider is responsible for any doses which expire on the redistribution list that have not been accepted for transfer to another VFC provider;
- 3) Providers accepting vaccine from the redistribution list are responsible for using the doses once they are transferred. KIP encourages providers to accept only doses they can administer before the expiration date;
- 4) The transferring and receiving provider will document these doses on their monthly MIR/reconciliation reports as transferred vaccines.
- 5) Once vaccine is transferred please contact KIP to let us know so we can adjust the redistribution list by either deleting the line or by reducing the amount of doses.
- 6) All vaccines must be in full boxes
- 7) The KIP nurse consultant who is on call must be contacted prior to transferring vaccine
- 8) Providers are responsible for keeping KIP notified if there is a change in amount of doses available for redistribution.
- 9) When placing an order, you may be contacted if the vaccine you are trying to order is on the redistribution list.
- 10) Varicella and Proquad, will not be posted on the VFC or Private Vaccine Redistribution List. Frozen Varivax vaccines are very intolerant to out of range temperatures. To prevent potential vaccine waste the Kansas immunization Program requests that Varivax containing vaccines not be transferred to other providers. Questions regarding transporting vaccine call 877-296-0464 to request assistance.
